About

I'm a final-year undergraduate student at IIT, pursuing a BSc (Hons) degree in Computer Science. I possess strong technical communication skills and excel in collaborative teamwork. My knowledge includes an understanding of Software Development Life Cycle (SDLC) and proficiency in various testing methodologies such as scenario, functional, and regression testing. Additionally, I have gained some exposure to API testing using tools like Postman, and I have also dabbled in QA automation utilizing tools like Cypress and Selenium.

Work Experience

BeGood Solutions

Software Engineer Intern

Starting my career as a Software Engineer Intern wasn't just about coding - it was a comprehensive learning experience. I delved into writing efficient, maintainable code, honed my test case creation skills, and actively participated in various stages of the SDLC, solidifying a strong foundation for my future in software development.

- Contributed to the development of Glibs, a web application enabling users to trade games, involving intricate components such as payment gateways, nearby user location features.
- Participated in the development of a mobile application using Flutter, mirroring the functionalities of the web application.
- Managed and updated test cases based on business needs.
- Organized and maintained test scripts.
- Generated test reports and documented bug reports.
- Automated UI testing using Cypress.
- Conducted API testing using Postman and automated API testing.

Education

BSc (Hons) Computer Science

Informatics Institute of Technology

Diploma In English & Diploma in IT

Esoft Metro Campus

Skills

Technical Skills

- Programming Skills: Java, JavaScript
- Testing frameworks: Cypress, Selenium
- Tools: Postman, Git
- Frontend: React, Nextjs
- Backend: Nodejs, SpringBoot

Testing Skills

- Testing methodologies: Regression testing, API testing, Functional testing
- Testing tools: Postman, Junit, Selenium, Cypress
